

CHOOSE FROM OUR ECONOMICAL, STYLISH AND DEPENDABLE HAND AND HAIR DRYERS OFFERING PUSH BUTTON OR AUTOMATIC WARM AIR DRYERS.

AIRLINE & AIRFORCE SERIES

• MODERN DESIGN

Contemporary styling provides a dependable, attractive cover for the heavy-duty works inside. Standard colour is white but custom colours are available — contact our order desk for details.

• VANDAL RESISTANT

Zinc die-cast cover with a baked enamel polyester finish, sloped top and non-accessible internal component parts combine to discourage vandalism on the AIRLINE. AIRFORCE dryers have a cast-iron cover with a porcelain enamel finish that is acid resistant and scratch proof.

• INTELLIGENT CIRCUITRY

“Push to start” models feature a solid state adjustable timer. Automatic “No Touch” models use the exact amount of energy for each pair of hands dried.

BOBRICK B740 ECLIPSE HAND DRYER

- contemporary styling
- durable
- drawn steel white vitreous enamel cover
- “no touch” operation improves hygiene
- environmentally responsible
- eliminates paper costs, vandalism and expensive waste disposal

• MAINTENANCE FREE

State-of-the-art components provide years of maintenance free operation

• QUIET OPERATION

Reduced noise through a more efficient design of the drive motor and fan

• SAVES YOU MONEY

Eliminate the ongoing costs of paper towels or cloth rolls. Dryers have the added feature of always being on the job and they will not run out of paper!

• ENVIRONMENTALLY FRIENDLY

Legislation compelling organizations to reduce solid waste output is increasing every day and landfill costs are also increasing. Dryers help to reduce waste in a sanitary, efficient way.
