550 Pump

330

#9 Pump
9BC buttress cap

9H : 9HL

- all-purpose polypropylene pump dispenser
- fits standard 38mm thread
- overall length is 16 1/8" (HL is 193/4")
- restrictor clips are available to modify pump for 1/2 oz. output
- 9POLY polypropylene pump dispenser meets FDA and USDA for food applications.

9BC Buttress Cap.

- adapts 9H/9HL pump to fit most 5 gallon pail closures

330 Drum Pump

- chemical and acid resistant drum pump
- adjustable to dispense 2, 4, 6 or 8 oz.
- fits 5 gallon pail with Rieke Senior spout
- fits 55 gallon drums with 3/4" or 2" standard F.I.P. fittings.

440 Plastic Siphon Pump

- polyethylene siphon pump resists acids, caustics, alkalies, light oils, waxes, cleaners and insecticides
- fits 55 gallon drums with 2" standard F.I.P. fitting
- 48" long tube; 40" hose allows for easy transfer of liquids;
- 3/4" diameter.

495 Self Priming Nickel Plated Pump

- resists chemical action of non-corrosive liquids
- 22 oz. per stroke
- fits 15, 30 or 55 gallon drums with 1 1/2" or 2" openings
- T-handle design provides smooth, easy operation
- 41 3/8" x 17/16" diameter at base.

550 Drum Pump

- deluxe barrel pump resists chemical action of noncorrosive liquids
- high density polyethylene and stainless steel construction
- lever action dispenses 8 oz. per stroke
- fits 15, 30 or 55 gallon drums with 1 1/2" or 2" openings
- 15 1/4" x 1" diameter.

Tank Sprayers

- high density, translucent, polyethylene tank resists leaks, breaks and chemical corrosion
- UV stabilizers in all poly components prevent polymer breakdown and stress damage
- pump handle is made of corrosion resistant, cold-rolled steel (carry strap standard on #953)
- polymer shut-off valve with lock-on feature for constant spray
- 9" pump stroke for quick pressurization and minimum effort
- pressure relief valve prevents over-pressurizing; three indicator bands show tank pressure in 15 lb. increments
- poly spray attachment rotates 360°
- adjust nozzle from fine spray to jet stream (shoots up to 30')
- ideal for floor maintenance, wood preservatives, masonry cleaning, pest control and general maintenance

* order # 952 - 2 US gallon

* order # 953 - 3 US gallon

Acid resistant tank sprayer

- fully equipped with Viton seals and gaskets
- wand and shut-off have no fiberglass and will withstand acid applications
- ideal for spraying acids, strippers, caustics, degreasers, pesticides, rust inhibitors, herbicides and curing agents

* order # 950 - 2 US gallon
