

DUST MOPS

ASTROLENE

Astrolene mop yarn is a special blend of four different synthetic yarns which was developed to provide the combination of strength, launderability and mop treatment absorption required in a good quality dust mop. Astrolene yarn is heat-set to prevent unravelling and lint-off.

23818/23824/23836

Astrolene yarn is colourfast and requires only 50% of the usual application of mop treatment. Astrolene launders well and dries in half the time of a cotton dust mop.

Astrolene Laundering Instructions:

Wash mops in a laundry bag at 70°C. Do not use bleach. Dry at 65°C. Because Astrolene dries quickly, drying time should be reduced. Remove from dryer when still slightly damp.

- * order PN # 23818 - 18" Tie-On, cut untreated
- 23824 - 24" Tie-On, cut untreated
- 23836 - 36" Tie-On, cut untreated
