

J410

DL-50 MACHINE DISHWASH

DESCRIPTION: An excellent non-foaming dishwashing compound containing chlorine for exceptional soil and stain removal. Effective free rinsing agents allow spot free glasses and dishware. This product is designed for use under all water conditions including hard water and is ideally suited for food plant use.

DIRECTIONS: Use approximately 2-3 gm per litre of water.
All food contact surfaces should be thoroughly rinsed with potable water.

The Agri-Food Safety Division, Agriculture Canada has no objection to the use of this product in food plants when used according to label directions.
