

ULTRA GLOSS Floor Finish

- premium ultra high gloss finish
- for use in high profile areas where the ultimate "wet look" is desired (1000+ rpm)
- resists scuffing, durable and easy to remove with conventional strippers
- use in high profile areas i.e. showrooms, foyers, reception areas and lobbies
- may be applied to all resilient and non-resilient floors except unsealed wood and cork
- produces safe, slip-free surface-will not brown or colour
- high solids content, ideal for burnished systems
- more film thickness per application of finish
- fast drying time, excellent levelling characteristics
- removes easily with conventional strippers

* order PN # 10000 - 4l, 10030 - 20l

EPIC Floor Finish

- protects and enhances appearance of high profile, high traffic areas
- excellent levelling characteristics
- may be applied on all floors, including: linoleum, asphalt, rubber, vinyl, terrazzo, concrete, cork and well sealed wood floors
- may be buffed or burnished
- provides scuff resistant, safe, slip-free surface
- fast drying time, does not streak or produce "mop drag"
- ideal for hospitals, airports, schools, shopping malls and theatres
- removes easily with conventional strippers

* order PN # 10040 - 4l, 10060 - 20l

SUREFOOT Floor Finish

- premium polymer floor finish, with excellent levelling characteristics
- can be buffed or burnished, easily maintained
- safe, slip-free surface, durable and economical
- fast drying time, removes easily with conventional strippers
- recommended for use on all resilient and non-resilient floor types except unsealed wood and cork.

* order PN # 10100 - 4l, 10110 - 20l

BUFF 'N' BURNISH

- can be buffed, burnished or as a mop-on finish restorer
- cleans and polishes out scruff marks while extending the life of the floor finish
- rejuvenates floor finishes and adds thermoplasticity to the film
- maintains slip resistance of floor finish, restores the appearance on burnished floors
- not suitable for use on unsealed wood or cork floors

* order PN # 10150 - 4l

SECURE Floor SEALER

- total undercoat/sealer protection to resilient and non-resilient floors
- resists yellowing and is wear resistant for longer periods of time
- do not use on unsealed wood, cork, concrete or magnesite
- chemical and detergent resistant metal interlock, easy to apply
- resistant to calcium chloride (ice melters)
- less drying time between coats, saves labour costs
- good levelling and gloss with minimal effort

* order PN # 10200 - 4l, 10210 - 20l
