

**Our top-of-the-line family of autoscrubbers offer versatility and durability for today's professional cleaning requirements**

**SHARK**

**SHARK50 - 20"**

**SHARK57 - 24"**

The Shark models feature a new compact design for easy use, constant brush pressure, high density polyethylene tank, and a fully protected vacuum motor and brush. Easy to maintain, recommended for smaller buildings such as elementary schools, meeting halls and recreation centers.

The Shark offers the best drying performance in the industry, combining a unique self-leveling brush head with a heavy-duty proprietary squeegee system. The unique anti-foam system uses the airflow in the tank to push the foam away from the vacuum inlet, eliminating potential flooding of the vacuum. The 13 gallon

recovery tank is easy to clean, with a large diameter discharge hose for fast dumping. The Shark 50 is pad-propelled and Shark 57 has an independent traction motor. Both models offer weight balanced design and easy-to-use fingertip controls providing optimum levels of productivity, performance and durability. Both Shark models come complete with the appropriate polypropylene brushes. Battery charger, batteries and other accessories are sold separately.

**PANTHER**

**PANTHER 70 - 27"**

This 27" automatic floor scrubber was designed for maximum performance and simplicity while offering extreme durability for heavy duty use with easy maneuverability. With a 100 litre capacity tank, the Panther is recommended for large applications such as hospital corridors, high rise foyers, shopping centers, high

schools, etc. Equipped with an automatic spin-on, spin-off brush system, easy-to-use fingertip controls and a unique, spring-activated self-leveling system. Drying performance is enhanced by a heavy-duty squeegee system which uses a proprietary squeegee material that is very flexible, yet very durable. Panther comes complete with two polypropylene brushes. Battery charger, batteries and other accessories are sold separately.
